The Group has 500 companies and locations in 50 countries on 5 continents with €16.7 billion revenue and 51,600 employees.

PRODUCTION MANAGER – CABLE MANAGEMENT DIVISION (CMD)

EXTERNAL VACANCY

Reports to: Production Director – CMD
Location: Oldbury, West Midlands, United Kingdom (UK)
Hours of work: Monday to Thursday 7.30am to 4.00pm with half hour lunch break each day and 7.30am to 12.30pm with no lunch break on Friday of each week – 37 hours in total, paid monthly.

Metsec CMD manufactures cable containment and support systems for the mechanical and electrical services industry. This is a permanent full-time position. The role of a Production Manager is to have a full understanding of roll forming and its associated processes for the construction industry and have a full understanding of the Company's manufacturing systems. You will be required to communicate and work with other departments including technical, sales, transport, quality and health and safety.

Person specification

- » Full understanding of our manufacturing systems and be capable of operating in a 'Kanban & just in time' environment
- » Excellent managerial skills
- » Be well organised, multi-skilled, self-motivated, and professional
- » Computer literate
- » Attention to detail; accuracy is paramount
- » Responsible for achieving objectives on own initiative, as well as part of a team
- » Good timekeeping and attendance
- » Be consistent with workload and work to tight deadlines
- » Be flexible with tasks/duties so that adequate cover is available if ever required
- » Be able to communicate at all levels and have a "can do" attitude
- » Must be eligible and able to prove you can work in the UK, as the Company does not hold a sponsorship licence.

Your responsibilities

- » Organise and manage all aspects of production
- » Understand the needs of customers and adjust production to suit
- » Ensure Company health and safety requirements are complied with and improved
- » Ensure Company personnel requirements are achieved
- » Ensure continuous improvement and all production KPIs are maintained and improved
- » Ensure working hours match production requirements
- » Ensure tooling requirements are maintained and achieved
- » Assist with new product and process development
- » Ensure maintenance requirements for plant and equipment are achieved and attend technical / maintenance meetings
- » Communicate and work with the Production Director and other departments as required.

Post date: Thursday 14th November 2024

Package: Competitive salary, Company pension scheme, health cash plan, life assurance, 33 days holiday (including statutory days), discounted gym membership, cycle to work scheme and an employee assistance programme.
