

voestalpine Metsec is the UK's biggest construction specialist cold roll forming company and part of the largest globally leading steel and technology group. Established 90 years ago, voestalpine Metsec is owned by the voestalpine Group. The Group has over 500 companies and locations in more than 50 countries on all 5 continents with €18.9 billion revenue and over 51,200 employees.

TOOLROOM OPERATIVE – TECHNICAL CENTRE SHOP FLOOR

INTERNAL VACANCY

Reports to: Technical Manager – Technical Centre

Location: Shop floor based in Oldbury, West Midlands

Hours of work: Monday to Thursday 7.30am to 4.00pm with half hour lunch break each day and 7.30am to 12.30pm with no lunch break on Friday of each week – 37 hours in total

Pay frequency: Monthly (if you are currently weekly paid, you will be entitled to receive £300, as you would be moving to monthly pay)

This role is of key importance to the continued growth and development of voestalpine Metsec plc. The ideal candidate will have hands on experience within a CNC turning environment with the ability to work under pressure. The individual will be expected to support the day-to-day production activities in the most efficient manner, working within a team to provide both manufacture of new parts and conduct repairs to support the manufacturing divisions.

Person specification

- » Experienced in CNC Turning necessary, Siemens Shopturn control would be advantageous
- » Experience with manual lathe work and general Toolroom machining methods
- » Able to read and understand engineering drawings
- » Well organised, multi-skilled, self-motivated, and professional
- » Good timekeeping and attendance
- » Responsible for achieving own key objectives, as well as the objectives of the team
- » Able to prioritise own workload and work to tight deadlines under pressure
- » Computer literate and able to communicate and record information effectively
- » Attention to detail; accuracy is paramount
- » Able to communicate at all levels and have a “can do” attitude
- » Willing to progress skillset on new equipment and machining methods
- » Must be eligible & able to prove that you can work in the UK, as the Company does not hold a sponsorship licence.

Your responsibilities

- » Operate Toolroom equipment to a high standard
- » Operate a Forklift Truck and Overhead Crane to assist with daily duties whilst also enabling tooling to be delivered to production – training will be provided
- » Ensure as part of the team, manufacture is covered in a timely manner so that try-out dates are met
- » Ensure as part of the team, breakdowns are covered in a timely manner so that production downtime is kept to a minimum
- » Aim for a “right first time” approach to all work carried out
- » Liaise with contractors/suppliers where required and when additional support is needed, including agreeing timescales and costs
- » Maintain awareness and ensure full compliance with Health and Safety legislation, housekeeping standards and Company rules and procedures
- » Follow verbal or written instructions and work to set out procedures
- » Seek continuous improvement related to the business KPI's and as part of the team, contribute towards improved performance and the overall improvement of the business.
